Ignite the Flame

What is a CTF?

AKA: **Capture the Flag**

A cyber security competition where you use cyber security skills to solve problems and win points

We use **jeopardy style** → each challenge is an isolated problem that requires specialized skills to solve and each fall into a specified cyber category

WHY ARE CTF'S IMPORTANT?

Provides an opportunity for hands-on practice! CTF's simulate real-world cybersecurity challenges in a collaborative and risk-free environment!

HOW TO THINK LIKE A HACKER

If you know hackers think, you'll know how to test against them

You'll be better at your cyber security job

CAREER EQUIVALENTS

Penetration Testers (Pen testers): Utilize the skills used in these to find vulnerabilities to fix

Red Hat hacking : The attacking side of a Red V. Blue simulation by companies

Overview

CRYPTOGRAPHY

scientific study of techniques for securing digital information, transactions, and distributed computations

WEB EXPLOITS

Taking advantage of vulnerabilities in web applications, servers, or browsers to gain unauthorized access, extract sensitive data, or manipulate application behavior

NETWORKING

Practice of connecting two or more computing devices to share information and resources using unique addresses (ip address) and major protocols

FORENSICS

Investigating cyber incidents by collecting, preserving, analyzing, and presenting evidence

OSINT

Collecting, evaluating and analyzing publicly available information with the purpose of answering a specific intelligence question

IGNITE THE FLAME RULES

DO NOT BREAK THE MAIN SITE!

Flag format: flame{x}

Flags: replace all spaces with underscores (_)

Work alone

GOOD LUCK!!

WEBSITE: HTTPS://IGNITE-THE-FLAME.VERCEL.APP/

CYBERPACK: HTTPS://TINYURL.COM/4JZWXPSF

REMINDERS

Flag format: flame{x}
Replaces all spaces with underscores (_)

CONGRATS JOSEPHINE!!!!

Thank you!

Our future events

02/25 **INTO THE FLAME**

Learn to go into the code in our Reverse Engineering and Binary Exploit Event!

03/11 **BYTE THE FLAME**

Our annual mini CTF! Come to show off your skills and win a prize!

04/02 **TAMING THE DRAGON: GHIDRA WORKSHOP**

Learn how to dissect malware using Ghidra!

04/11 **CAPTURE THE FLAME**

Our annual citywide CTF!
